VISION & MISSION

Vision

To offer quality differentiated IT solutions and services to our clients in order for them to achieve their business objectives and to keep up with the evolving world of technology.

Mission

Becoming the leading online service and software provider in the IT market and also penetrating international markets.

MILESTONE

Innovative IT solutions empowering businesses for a digital future.

2022 In 2022, we successfully expanded our service portfolio to include advanced software development, IT consultancy, and digital marketing solutions. Our efforts enabled us to partner with over 15 small and medium-sized businesses, delivering tailored IT solutions that streamlined their operations and enhanced productivity.

2023 The year 2023 was a period of significant growth and expansion. We secured partnerships with multinational corporations, allowing us to work on larger-scale, high-impact projects. Furthermore, we expanded our market presence beyond Kisii County, venturing into neighboring counties and solidifying our position as a regional IT leader. One of our major achievements this year was the development and deployment of customized enterprise management software for five major organizations, resulting in transformative improvements in their workflows.

2024 In 2024, we introduced AI and machine learning services, equipping our clients with cutting-edge tools to optimize their processes and make data-driven decisions. This year also marked a major milestone with the opening of our first international office, further establishing a global footprint and enhancing our ability to serve clients worldwide. We made significant investments in research and development to innovate next-generation software solutions, positioning E-MAXY IT-SERV LTD as a leader in technological advancement. By serving over 100 clients across industries such as healthcare, education, retail, and finance, we achieved a remarkable milestone. Our efforts were recognized with multiple industry awards for excellence in IT consultancy and software development.
